JUNTING LIU

Third-year Ph.D. Student in Finance

Email: jliu@mays.tamu.edu
Phone: +1 (979) 326-0165

Mays Business School, Texas A&M University
College Station, TX

Education

2024–2029 (Expected)	**Texas A&M University, Mays Business School**, College Station, TX Ph.D. in Finance
2021–2024	**Southwestern University of Finance and Economics**, Chengdu, China M.S. in Mathematical Finance. Advisor: Qi Wang
2017–2021	**Southwestern University of Finance and Economics**, Chengdu, China B.S. in Math; B.A. in Finance. Advisor: Qi Wang

Research Interests

Asset Pricing, Financial Intermediation, Financial Econometrics, Derivatives

Publications

1. **VIX Option Pricing through Nonaffine GARCH Dynamics and Semi-analytical Formula**
   with Qi Wang and Yuanyuan Zhang
   Journal of Futures Markets, 44, 1189–1223, 2024. *doi:10.1002/fut.22504*
   Develops semi-analytical VIX option pricing approximations under nonaffine GARCH dynamics and compares their performance across empirically relevant volatility models.

Working Papers

2. **Do Sobolev Density Expansions Improve Option Pricing?**
   with Qi Wang and Lu Zhang
   Under review at Mathematical Finance
   Constructs density approximation methods in Sobolev space and applies them to VIX density approximation and VIX option pricing under continuous-time models.

3. **Mutual Fund Outflows, Dealer Networks, and Corporate Bond Risk Premia**
   Solo-authored
   First-year paper, Mays Business School
   EWMES 2026 (scheduled)
   Develops a continuous-time OTC model of corporate bond markets with forced liquidation by bond funds and maturity-dependent concentration costs for funds and dealers. The model studies how intermediary frictions shape price impact, dealer-to-fund pricing, and the term structure of corporate bond yields during liquidity stress.

4. **Whose Beliefs Price Risk? Portfolio Constraints and the Marginal Investor**
   Solo-authored
   Second-year paper, Mays Business School
   Develops a continuous-time equilibrium model in which collateral and short-sale constraints attenuate the transmission of heterogeneous beliefs into portfolios and shift marginal pricing influence. Links weak belief-to-portfolio pass-through to risk premia and, under Gaussian beliefs, shows that the slope relative to its frictionless benchmark identifies the share of locally unconstrained investors.

Teaching Experience

Spring 2025, 2026	**Texas A&M University, Mays Business School** Teaching Assistant: Managerial Finance (Undergraduate; instructor: Wei Wu); Investment (Undergraduate; instructor: Philipp Illeditsch); Financial Engineering and Risk Management (MSQF; instructor: Philipp Illeditsch)
Fall 2021	**Southwestern University of Finance and Economics** Teaching Assistant, Stochastic Differential Equations (Undergraduate). Instructor: Qi Wang

Conferences and Professional Activities

December 2026 (Upcoming)	Accepted presenter, **2026 Econometric Society European Winter Meeting (EWMES)**, University of Warsaw, Poland, December 2–4. Paper: "Mutual Fund Outflows, Dealer Networks, and Corporate Bond Risk Premia"
October 2026	Discussant, **2026 Financial Management Association (FMA) Annual Meeting**, Tampa, FL, October 16. Session 186: Corporate Bonds. Paper: "Short Squeezes in the Corporate Bond Market" by Biswajit Chakraborty, Gjergji Cici, Mohammad Ghaderi, and Angel Tengulov
July 2026	Participant, **COAP Summer School: Corporate Policies and Asset Prices**, University of Luxembourg and COAP, Luxembourg, July 6–10
June 2026	Participant, **PSE Summer School: Macroeconomics**, Paris School of Economics, Paris, France, June 15–19
June 2026	Participant, **Yale Summer School in Behavioral Finance**, Yale School of Management, International Center for Finance, June 8–12
August 2025	Participant, **3rd Summer School in Heterogeneous Agents in Asset Pricing**, Cleveland State University, College of Business, August 4–7
Summer 2025	Participant, **Macro, Money, and Finance: Online Summer School**, Markus' Academy / Princeton Bendheim Center for Finance
July 2024	Participant, **SoFiE Financial Econometrics Summer School: "The Econometrics of Derivatives Markets"**, Northwestern University, Kellogg School of Management, July 22–26

Honors and Awards

2024	China National Scholarship, Ministry of Education, China
2022, 2023, 2024	First-Class Scholarship for Graduate Studies, Southwestern University of Finance and Economics
2019, 2020, 2021	Academic Scholarship, Southwestern University of Finance and Economics

Skills

Programming	Python, Julia, MATLAB, Mathematica, Stata, LaTeX
Software	Jupyter, VS Code, Spyder

Additional Information

Language: Chinese (native), English (fluent).

Last updated: October 17, 2026
